### **AMENDMENTS TO THE CLAIMS**

This listing of claims will replace all prior versions and listings of claims in the application.

#### **Listing of Claims:**

Claim 1 (Currently Amended) A hair treatment composition consisting essentially of: a hair conditioning agent; a silicone pressure sensitive adhesive emulsion in which the emulsion, prior to addition to the composition, is a mixture of a silicone pressure sensitive adhesive and a hydrocarbon-containing non-silicone organic solvent, said mixture having been emulsified in water using one or more surfactants selected from the group consisting of anionic surfactants, non-ionic surfactants, and blends thereof; and propellant, and wherein the emulsion is free of silicone-based solvents and the hair treatment composition is in the form of a leave-on hair styling mousse.

Claims 2-3 (Cancelled)

Claim 4 (Previously Presented) A hair treatment composition according to claim 1 in which the hydrocarbon-containing non-silicone organic solvent present in the silicone pressure sensitive adhesive emulsion is selected from the group consisting of heptane, hexane and isododecane.

Claim 5 (Currently Amended) A hair treatment composition according to claim 4 in which the hydrocarbon-containing non-silicone organic solvent is isododecane, and said one or more surfactants is selected from the group consisting of anionic surfactants and blends of anionic and non-ionic surfactants.

Attorney Docket No.: J3715(C)  
Serial No.: 10/550,622  
Filed: August 3, 2006  
Confirmation No.: 4634

Claims 6-7 (Cancelled)

Claim 8 (Previously Presented) A hair treatment composition according to claim 1 in which the propellant is a hydrocarbon gas.

Claim 9 (Cancelled)

Claim 10 (Previously Presented) A composition according to claim 1, in which the silicone pressure sensitive adhesive comprises 20 to 80 % by weight of the silicone pressure sensitive adhesive emulsion.

Claim 11 (Previously Presented) A method for styling hair which comprises contacting the hair with a composition in accordance with claim 1.

Claim 12 (Cancelled)

Claim 13 (Previously Presented) A method of styling hair which comprises contacting the hair with a hair treatment composition according to claim 1 to impart hair styling without stickiness.

Claim 14 (Cancelled)

Claim 15 (Previously Presented) A hair treatment composition consisting of: a hair conditioning agent; a silicone pressure sensitive adhesive emulsion in which the emulsion, prior to addition to the composition, is a mixture of a silicone pressure sensitive adhesive and a hydrocarbon-containing non-silicone solvent, said mixture

Attorney Docket No.: J3715(C)

Confirmation No.: 4634

having been emulsified in water using one or more surfactants; carrier; propellant; optionally, hair styling polymer; and, optionally, one or more additional ingredients selected from the group consisting of preservatives, fatty alcohols, pH adjusting agents, colouring agents, perfume oils, chelating agents, plasticizing agents, and surfactant in addition to the surfactant present in the silicone pressure sensitive adhesive emulsion; wherein the hair treatment composition is in the form of a leave-on hair styling mousse.

Claim 16 (Previously Presented) A hair treatment composition according to claim 15 wherein if hair styling polymer is present, it is present in an amount below 0.01 wt% of the hair treatment composition.

Claim 17 (Previously Presented) A method of styling hair which comprises contacting the hair with a hair treatment composition according to claim 15 to impart hair styling without stickiness.

Claim 18 (New) A hair treatment composition according to claim 1 wherein the silicone pressure sensitive adhesive comprises a silicone fluid and a silicate.

Claim 19 (New) A hair treatment composition according to claim 1, wherein if hair styling polymer is present, it is present in an amount below 0.01 wt% of the hair treatment composition.
